

JG Howard Ltd can offer you a full supply and installation service for custom made or kitchens purchased from most of the leading Kitchen suppliers in the UK and occasionally undertake installations overseas for some of our prestigious clients. If desired we offer a service where we will carry out just an installation service for those clients who have sourced their own kitchen units, worktops and appliances elsewhere, but require a professional fitting service to the highest standards.

We offer these services to all domestic customers and to those who are in the process of new builds. Based in Lincoln and the surrounding villages and towns of Lincolnshire, we are more than happy to travel to our clients and look forward to discussing your project over the phone or during a home consultation.
